## *Instax Mini Rentals*

Skip the hassle (and expense) of buying and selling your own Instax camera and let us provide it for you! We take care of ensuring you have a working camera and ensuring the batteries are well charged. And if you have us provide the film, you won't need to worry about running out or buying too much!

### **Camera with up to 100 exposures ~ \$130**

Batteries included. Additional film can be added on at the wedding at \$12/10 exposures; only pay for what you use after 100 exposures

### **Camera only (you provide the film) ~ \$40**

Batteries included. You must provide the instax mini film.

### **Extra Film ~ \$12 per 10 exposures; \$110 per 100**

Additional film you can purchase on your wedding day or ahead of time

## Instax Mini Link Rentals

This is a fun alternative to the Instax camera option because your guests will get to pose and choose their photo to print so less film is wasted on weird faces, poor lighting, or missing someone in the shot. You will need to provide the phone for taking photos or encourage your guests to download the Instax app ahead of arriving to your wedding.

### **Printer with up to 100 exposures ~ \$140**

Batteries included. Additional film can be added on at the wedding at \$12/10 exposures; only pay for what you use after 100 exposures

### **Printer only (you provide the film) ~ \$50**

Batteries included. You must provide the instax mini film.

### **Extra Film ~ \$12 per 10 exposures; \$110 per 100**

Additional film you can purchase on your wedding day or ahead of time

# DIY<sup>ish</sup> photo booth Phone and Ring Light

Really DIY your photobooth with this set-up! Your coordinator team will even set it all up for you. This rental does not include anyone to "run" your photobooth for you but with the photo booth app or the Instax printer app, your guests will have no issues with snapping awesome poses at your wedding in excellent lighting. After your wedding, all photos taken will be uploaded to a Google photo drive for which you will have the link to with the photos for 90 days after your wedding to download.

## **Ring light on a stand with phone and premium photobooth app ~ \$150**

We'll keep the phone charged all night long with a power bank and you'll get to choose between a few different layouts for your photo booth "prints"

## **Ring light on a stand with phone and Instax Mini Link Printer with 100 exposures ~ \$250**

Again, we'll make sure the phone has plenty of charge all night long. Additional film can be added on at the wedding at \$12/10 exposures; only pay for what you use after 100 exposures
